

Join the “2018 Health in Buildings for Today and Tomorrow” Conference!

The theme of the 2018 Health in Buildings Roundtable (HiBR) Conference is “Health in Buildings for Today and Tomorrow: Making Connections.” This conference will occur on July 19-20, 2018 at the Natcher Conference Center (Building 45) on the NIH Bethesda campus. The conference is free and is open to the public. If you are interested in attending the conference, please register [here](#) (while space remains).

Conference attendees will engage to develop actionable strategies that incorporate innovative healthy building design, building efficiency techniques, and new building materials for multiple building types. The goals of the conference are to:

- Define data resources and metrics for how the built environment impacts health;
- Discover how sustainable building design, operation and technologies can improve health outcomes and,
- Identify outstanding research issues that remain unanswered.

The conference will follow a schedule of presentations in the morning and afternoon, a poster session during lunch, and breakout discussion sessions in the afternoon. Please visit the [HiBR site](#) for full details on the time, room locations, and topics for presentation and poster sessions. Listed below are the topics that will be discussed at the breakout sessions on the mezzanine level of the Natcher Conference Center.

The Breakout Session discussion topics include:

- Water and Indoor Moisture
- Indoor Air Quality
- Psychosocial Outcomes and Urban Greenspace
- Physical Activity
- Electromagnetic Fields and Electromagnetic Radiation
- Measurement Methods for Human Health
- Energy, Health and Sustainable Communities
- Imagining the Future

There will also be an opportunity each day for a guided tour of the Porter Neuroscience Research Center (PNRC). Register for the tour [here](#) (Note: the tour is limited to 30 participants per day and registration will be closed when this capacity is filled).
